

MADISON COOTS

Harvard University · Cambridge, MA 02138
mcoots@g.harvard.edu | madisoncoots.com

EDUCATION

Harvard Kennedy School

Ph.D. Public Policy, 2022–2027 (expected)

Harvard University

M.A. Public Policy, 2022–2025

Stanford University

M.S. Computer Science (Artificial Intelligence), 2019–2021

Stanford University

B.S. Management Science and Engineering (Minor: English), 2015–2019

RESEARCH INTERESTS

Responsible AI, inequality, and the use of computational methods to advance organizational and policy goals

JOB MARKET PAPER

Algorithmic Bias in Lending: Evidence from a Fintech Audit PREPRINT

Madison Coots, Robert Bartlett, Julian Nyarko, and Sharad Goel

Under review

Algorithmic lending has transformed the consumer credit landscape, with machine learning models commonly facilitating underwriting decisions. To comply with fair lending laws, these algorithms exclude legally protected characteristics, such as race and gender. Yet algorithmic underwriting can still inadvertently favor certain groups, prompting concerns about whether lending algorithms exhibit discriminatory behavior. Using proprietary loan-level data from a major U.S. fintech platform, we audit lending decisions across approximately 80,000 personal loans. We find that loans made to men and Black borrowers yielded lower profits than loans to other groups, suggesting that men and Black borrowers benefited from relatively favorable pricing. We trace these disparities to miscalibration in the platform’s underwriting model, which overestimates risk for women and underestimates risk for Black borrowers. We then show that one could correct this miscalibration—and the corresponding disparities—by including race and gender in underwriting models, illustrating a tension between competing notions of fairness.

PEER-REVIEWED PUBLICATIONS

1. Alex Chohlas-Wood, **Madison Coots**, Joe Nudell, Julian Nyarko, Emma Brunskill, Todd Rogers, and Sharad Goel. “Automated Court Date Reminders Reduce Warrants for Arrest: Evidence from a Text Messaging Experiment.” *Science Advances* (2025). [PAPER](#)
2. **Madison Coots**, Kristin A. Linn, Sharad Goel, Amol S. Navathe, and Ravi B. Parikh. “Racial Bias in Clinical and Population Health Algorithms: A Critical Review of Current Debates.” *Annual Review of Public Health* (2025). [PAPER](#)

HONORS AND AWARDS

Distinction in Student Teaching Award	<i>Harvard Kennedy School</i>	2026
Dissertation Research Grant (\$10,000)	<i>Horowitz Foundation for Social Policy</i>	2026
Rising Star in IOE-ISyE-MS&E	<i>Univ. of Michigan, Georgia Tech & Stanford</i>	2026
Dean’s Award for Excellence in Student Teaching	<i>Harvard Kennedy School</i>	2025
Distinction in Student Teaching Award	<i>Harvard Kennedy School</i>	2025
Social Equity and Health Equity Grant (\$5,000)	<i>Malcolm Wiener Center, Harvard Kennedy School</i>	2025
James M. and Cathleen D. Stone PhD Scholar	<i>Harvard University</i>	2023–present
Harvard Graduate Prize Fellowship	<i>Harvard University</i>	2022–2023
Stanford Engineering Coterminial Fellowship	<i>Stanford University</i>	2019–2020
Stokes Scholar	<i>U.S. Federal Government</i>	2017–2021

PRESENTATIONS

2026: International Conference on Computational Social Science (Burlington, VT; submitted talk); Econometric Society ESIF Economics and AI+ML Conference (Ithaca, NY; submitted talk); POMS Annual Conference (Reno, NV; submitted talk); IOE-ISyE-MS&E Rising Stars Workshop, University of Michigan (Ann Arbor, MI; invited talk)

2025: American Law and Economics Association Conference (New York, NY; submitted talk); POMS Annual Conference (Atlanta, GA; invited talk)

2024: Predictive Analytics & Comparative Effectiveness Center Symposium (Boston, MA; invited talk); Society for Medical Decision Making Annual Meeting (Boston, MA; submitted talk); International Conference on Computational Social Science (Philadelphia, PA; poster)

2023: Computational and Methodological Statistics Conference (remote; invited talk); APPAM Fall Research Conference (Atlanta, GA; submitted talk); INFORMS Annual Meeting (Phoenix, AZ; invited talk); INFORMS Healthcare Conference (Toronto, ON; invited talk)

2022: ACM Conference on Equity and Access in Algorithms, Mechanisms, and Optimization (Arlington, VA; submitted talk)

TEACHING

API 201: Quantitative Analysis and Empirical Methods I

Teaching Fellow, Harvard Kennedy School, Fall 2024, 2025

Applied statistics course in the MPP core: exploring and summarizing data with R, probability theory, statistical inference, and decision analysis

API 202Z: Quantitative Analysis and Empirical Methods II

Teaching Fellow, Harvard Kennedy School, Spring 2025, 2026

Advanced applied statistics course in the MPP core: statistical inference and linear regression models

API 203Z: Quantitative Analysis and Empirical Methods III

Teaching Fellow, Harvard Kennedy School, Spring 2025

Advanced applied statistics course in the MPP core: causal inference and machine learning

DPI 681M: The Science and Implications of Generative AI

Teaching Fellow, Harvard Kennedy School, Spring 2024

Designed and taught the technical complement on language models, deep learning models, and transformers

MS&E 125: Applied Statistics

Course Assistant, Stanford University, School of Engineering, Winter 2020

Undergraduate course in applied statistics: exploring and summarizing data, statistical inference, linear and logistic regression

MS&E 252: Foundations of Decision Analysis

Course Assistant, Stanford University, School of Engineering, Fall 2019

Graduate course in quantitative decision analysis covering utility theory, sensitivity analysis, and value of information

Code in Place

Volunteer Section Leader, Stanford University, Spring 2020

A 5-week introductory Python course offered during COVID-19 with 10,000 global students and 900 volunteer teachers; prepared and taught a weekly discussion section of 10–12 students

PROFESSIONAL
EXPERIENCE

Systems & Technology Research
Senior Data Scientist (Part-time), Woburn, MA, 2023–present

Stanford Computational Policy Lab
Data Scientist, Stanford, CA, 2020–2022

Aerospace Technical Services
Data Scientist (Part-time), Remote, 2020–2024

U.S. Government (agency withheld)
Data Science Intern, Washington, D.C., 2017–2021

ACADEMIC SERVICE

Refereeing
Epidemiology..... 2025
International Conference on Computational Social Science..... 2025, 2026

Leadership
Teaching Statistics in the Age of Agentic AI Workshop (Organizing Team)
Harvard Kennedy School..... 2026
An Introduction to Reproducible Programming and Project Management Short Course
(Supporting Instructor) *Society of Medical Decision Making Annual Meeting* 2024

SKILLS

Languages: R, Python

AI: LLM evaluation, text data processing, chatbot design and user experience for AI systems

Methods: Statistical inference, causal inference, simulation, decision analysis

ADDITIONAL
INFORMATION

Hobbies & Interests
Bird watching, plant cultivation and collection (specializing in Hoya species), baking

Citizenship
United States, Mexico
